

# January 5, 2015 Steward Update

---

Dear Stewards,

Welcome to 2015! At the beginning of this new year we wanted encourage you to donate unwanted electronics to family members, friends or local charities. If they are no longer usable, bring them to an EPRA-authorized **drop-off location** near you. For a list of location please [visit us](#).

It is our pleasure to assist you. Please email us at [rep@epra.ca](mailto:rep@epra.ca) or call at 1-888-567-4535 with questions or suggestions.

We wish you all the best in 2015 and look forward to working with you!

EPRA Steward Services

## Corrections and Enhancements to the EPRA National listing

Program with Correction or Wording Enhancement	Product	Category	Page	Comments	Correction	Enhancement
NL	Combination TV/DVD or VHS players	Display Devices	4	These items have always been obligated in NL as they are a display device, therefore, a check mark has been added to the "Combination TV/DVD or VHS player" line for NL.	✓	
NL	Security system monitors with integrated DVR	Display Devices	4	These items have always been obligated in NL as they are display device, therefore, a check mark has been added to the "Security system monitors with integrated DVR" line for NL.	✓	
NL	Portable display device >10"	Display Devices	4	These items have always been obligated in NL as they are display device, therefore, a check mark has been added to the "Portable display device >10" line for NL.	✓	
BC, QC	Port Replicator	Computer Peripherals	8	Port Replicators are a type of laptop docking station. They are connected to a laptop in order to provide connectivity to peripherals. As such, to enhance clarity for stewards, "port replicators" have been added to the "Laptop docking station" definition.		✓

<b>Product Definitions:</b> Electronic medical devices & monitoring and control equipment								
<b>Excluded:</b> • Electronic fertility monitors • Light therapy								

**MEDICAL AND MONITORING EQUIPMENT 50-200 kg**

## Provincial Program Product Definitions and Fees

<b>MICRO TOYS ELECTRONIC</b>	PROVINCE	BC	ARMA	SK	MB	OES	QC	NS/PEI	NFLD
	EHF	\$0.05	-	-	-	-	-	-	-
	Electronic toy promotional items (i.e. sold with meals)	✓							
	Electronic action figures or dolls	✓							
	Electronic toy key chains	✓							
	Electronic toy vehicles	✓							
	FURTHER EXAMPLES TO BE POSTED								
<b>Product Definitions:</b> Electronic Toys generally weighing less than 50 grams.									
<b>Excluded:</b> <ul style="list-style-type: none"> <li>• Children's flashlights</li> <li>• Toys without electronics imbedded</li> <li>• Children's watches</li> <li>• Accessories, cabling, &amp; components sold separately that don't constitute the primary toy or game</li> </ul>									

### NOTES:

1. Products included/excluded are examples based upon member inquiries but do not represent an exhaustive list of all obligated products by category. Stewards must assess products against the definitions of each obligated product category to determine the applicability and appropriate EHF, and may consult the program for assistance in clarification where required.
2. Products identified as “Included in the Obligated Category” are subject to the EHF for that category; Products identified as “Not Included in the Obligated Category” are not subject to the EHF for that category, however, members must consider all obligated product categories to determine if the product meets the definition of another obligated product category.
3. In selected cases, selected products such as cables, connectors, chargers and remote controls, memory cards and USB keys are regulated and will be accepted for recycling at EPRA Québec depots, but do not attract an EHF.
4. Electronic equipment designed and intended to be used exclusively in an industrial, commercial or institutional (ICI) setting which exceed a unit weight threshold of 120 kilograms shall be excluded from the program (EPRA QC only).
5. A product is excluded from any category if it weighs >200kg, is professionally installed, or cannot readily and safely be de-installed, transported and/or recycled (EPRA BC and EPRA MB only).
6. A product is excluded from any category if it has been implanted in a person, if it is surgically invasive or is inserted into a patient's body, if it requires decontamination prior to recycling, or if it has come into contact with blood or other biological contaminants prior to end-of-life (EPRA BC only).
7. There are two instances where multiple obligated products may be packaged by the original equipment manufacturer (OEM) in a single physical package carrying a single SKU (stock-keeping unit) and be subject to one EHF for the entire package of products:
  - a) Where the product definition above specifically includes multiple obligated products, or
  - b) Where a product is comprised of different functional components that are sometimes sold separately, but in this case are integrate into a single operating unit.

In this instance, the integrated product carries the single highest EHF. Examples include:

### *Phase I*

- Display device with integrated video player (DVD, VCR, Blu-ray, etc.)
- Printer/Scanner/Fax (all-in-ones)

### *Phase II*

- Multiple drive players integrated into a single device –e.g. DVD & VCR player
- Fax machine with a corded telephone handset
- Telephone with built-in answering machine
- Security display monitor with built-in digital video recorder (DVR)

8. Floor-standing equipment should only include equipment which is integrated, and which cannot easily be broken down by the end-user for recycling (e.g. a mainframe). Floor-standing equipment is not considered one unit under the program if the equipment is comprised of easily-removable subcomponents. If the latter is the case, the rack or frame containing the equipment is excluded and the individual sub-components are covered in categories above as individual/multiple units.

9. Electronic Toys are defined as a plaything placed on the market that uses a cable/plug, batteries, of any type, or other untethered mechanism, to provide power to operate a feature function.

10. The list of Product Definitions and Clarifications may be revised periodically by the Program.
